

mods::yaml::yaml_description_t

```
graph BT; A[mods::yaml::consumable_description_t] --> B[mods::yaml::yaml_description_t]
```

The diagram illustrates an inheritance relationship between two C++ types. At the bottom is a box with a light gray background containing the text 'mods::yaml::consumable_description_t'. A blue arrow points vertically upwards from the top center of this box to the bottom center of a white box at the top. The white box contains the text 'mods::yaml::yaml_description_t'. This visualizes that 'consumable_description_t' inherits from 'yaml_description_t'.
