

Catch::Counts

```
graph BT; A[Catch::Totals] -- "testCases assertions" --> B[Catch::Counts];
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a box labeled 'Catch::Totals' with a light gray fill. A vertical purple line with an arrowhead at the top points from this box to a box labeled 'Catch::Counts' at the top. To the right of the arrow, the text 'testCases' and 'assertions' is written, indicating the methods being inherited.
